

Capability Statement

Do you want faster, more effective, and data-driven solutions to your problems?

Do you want a more creative and innovative organization continually driving stronger performance?

We deliver Research-based Creativity, Innovation, Leadership Training, Coaching and Mentoring Combined with Marketing and Operations Analysis to do just that!

KEY DIFFERENTIATORS

- ★ We build skills in organizations for structured innovation focused on speed, effectiveness, and ease of implementation.
- ★ We provide programs tailored to organizational needs for creativity, innovation, entrepreneurial and leadership skills.
- ★ We augment solution evaluation with engineering, analytics, marketing analysis, & R&D strategy.
- ★ We help organizations think and plan strategically through data analysis and visualization.
- ★ We deliver project planning, risk management, business development, analytical, technological, and instructional services to help your organization execute innovation strategy

AT CIE ADVISING, WE BELIEVE EVERYONE CAN INNOVATE

- **Effective outcomes matter.** We want organizations to continue to innovate and create for generations to come. Principles for identifying and evaluating appropriate and implementable solutions matter.
- **Innovation processes work.** Innovation and creativity can be taught and developed, and key life skills can be built that enable effective risk-taking that is essential for every organization.
- **Teams succeed and innovate when they believe they can.** When we connect, share vulnerability, and share our purpose, innovation and creativity thrive.

A Unique Partnership between Education, Engineering, and Innovation Management Leadership
